## Quality Check

Work Performed & Checked by

Wheel nuts have been tensioned with a tension wrench

nuts tensioned by

I agree that all the above work was carried out and acknowledge I have been informed that I am to re-check the wheel nut tension on all wheels after travelling 50km from having the new tyres fitted.

## Customer Safety Alert!

- Truck wheel nuts must be re-tensioned after 50 kilometers travel
- Forklift & Off-the-road wheel nuts must be re-tensioned after 2 hours use
- Signature
